

Spaying and neutering are simple, safe surgeries that save lives! These procedures are important in reducing the number of unwanted pets that end up in shelters and have to be euthanized. Spaying and neutering also eliminates the risk of certain types of cancers in your pet and can help prevent undesirable behaviors like fighting, spraying and roaming. Do your part to prevent overpopulation and spay/neuter your pet.

**Wellness Promotion IS BACK!**  
 Now through March 31, 2019  
 Bring your fur-baby in for a Comprehensive Exam and Complete Wellness Profile that includes over 60 individual tests for just \$180.00!  
 We are also offering 10% off any additional testing, such as X-rays and/or an EKG, when added to the basic package.
