

LABOR DAY QUESTIONS

What have Democrats done for **Workers and Working Families**?

Created Social Security, Medicare, and worker protection laws.

And what have they done lately?

President Biden and Democrats in Congress HAVE:

- **HELPED** millions get through COVID by providing direct economic aid
- **HELPED** save hundreds of thousands of small business jobs
- **HELPED** decrease unemployment to the lowest level in recent history
- **HELPED** create millions of good paying jobs while investing in infrastructure and technology
- **HELPED** millions rise out of poverty by increasing the child tax credit
- **HELPED** millions of seniors and disability recipients on Medicare by lowering the annual out-of-pocket drug expense cap to \$2000, AND reducing prescription drug costs through negotiated prices

All of this while reducing the national deficit at no cost to ordinary working people primarily through long overdue tax contributions from billion-dollar corporations. Current estimates are a \$1.7 trillion reduction – a one-year record.

- **Democrats have accomplished these things for working Americans with virtually NO Republican votes.**
- **Social Security and Medicare are at risk under Republican leadership.**

Vote For JENNIFER WEXTON (D)
For Congress On Nov. 8th
