

"To buy or sell with less pain...call Wayne!"

Getting your home ready for sale, and finding the next one (no stairs!!!) can be a stressful experience. So many memories and so much stuff! A good realtor who understands where you are in life can make all the difference!

I love my senior clients and I am committed to making your next move as pain-free as possible, with help in every aspect of your move from my team and affiliate resources.

We didn't feel rushed or pressured. Wayne listened and he was very responsive and patient at every step in the process.
